

Dear User,

Please note that the username/password authentication method will be abandoned on **28 February 2020**.

The removal of the username/password authentication method will be carried out in two phases:

In a first time:

- this authentication method will stay available on the LBR website for **20 days**, for the purpose of accessing those documents that are still available from the 'My Orders' and 'My Payments' menu in your user account.
Beyond that, those documents will no longer be accessible.
- you will no longer be able to use this authentication method to place orders.

In a second time, this authentication method will definitely not be offered anymore on the LBR Website. By that time, two other authentication methods will be available to access the services requiring authentication on the LBR website:

- anonymous authentication, which does not require setting up a user account,
- authentication using a LuxTrust product or eID card, which requires setting up a user account afterwards

To help you choose the authentication method that is best suited to the way you use the site, please find below an overview of the services offered on the LBR website and the authentication methods required to access each of them.

	Anonymous authentication	Authentication using a LuxTrust product
